1103   Insulin-Like Growth Factors and Leukocyte Telomere Length: The Cardiovascular Health Study

1107   Calorie Restriction Enhances T-Cell – Mediated Immune Response in Adult Overweight Men and Women

1114   Overexpression of Mn Superoxide Dismutase Does Not Increase Life Span in Mice
Youngmok C. Jang, Viviana I. Pérez, Wook Song, Michael S. Lustgarten, Adam B. Salmon, James Mele, Wenbo Qi, Yuhong Liu, Hanyu Liang, Asish Chaudhuri, Yuji Ikeno, Charles J. Epstein, Holly Van Remmen, and Arlan Richardson

1126   Is Altered Expression of Hepatic Insulin-Related Genes in Growth Hormone Receptor Knockout Mice Due to GH Resistance or a Difference in Biological Life Spans?
Jacob A. Panici, Feiya Wang, Michael S. Bonkowski, Adam Spong, Andrzej Bartke, Ludmila Pawlikowska, Pui-Yan Kwok, and Michal M. Masternak

1134   Genetic (Co)Variation for Life Span in Rhabditid Nematodes: Role of Mutation, Selection, and History
Joanna Joyner-Matos, Ambuj Upadhyay, Matthew P. Salomon, Veronica Grigaltchik, and Charles F. Baer

1146   Age-Related Changes of Claudin Expression in Mouse Liver, Kidney, and Pancreas
Theresa D'Souza, Cheryl A. Sherman-Baust, Suresh Poosala, James M. Mullin, and Patrice J. Morin

1154   Age-Associated Increase in Cleaved Caspase 3 Despite Phosphorylation of IGF-1 Receptor in the Rat Retina
Youde Jiang, Robert J. Walker, and Jena J. Steinle

1163   Editorial
Call for Papers: Aging Versus Disease
Anne B. Newman and Luigi Ferrucci

1165   Guest Editorial
Toward a Common Language of Disablement
Alan M. Jette

1169   Guest Editorial
The Challenge of Understanding the Disablement Process in Older Persons
Jack M. Guralnik and Luigi Ferrucci

1172   Guest Editorial
Adopting the ICF Language for Studying Late-life Disability: A Field of Dreams?
Vicki A. Freedman

1175   Letter to the Editor
Invited Response to Letter to the Editor.  Beyond Dueling Models
Alan M. Jette

1177   Interleukin-18 Polymorphism and Physical Functioning in Older People: A Replication Study and Meta-Analysis
Kate Thomas, Sajjad Rafi, Timothy M. Frayling, Shah Ebrahim, Meena Kumari, John Gallacher, Luigi Ferrucci, Stefania Bandinelli, Robert B. Wallace, David Melzer, Richard M. Martin, and Yoav Ben-Shlomo

1183   Higher Inflammatory Marker Levels in Older Persons: Associations With 5-Year Change in Muscle Mass and Muscle Strength
Laura A. Schaap, Saskia M. F. Pluijm, Dorly J. H. Deeg, Tamara B. Harris, Stephen B. Kritchevsky, Anne B. Newman, Lisa H. Colbert, Marco Pahor, Susan M. Rubin, Frances A. Tylavsky, Marjolein Visser, for the Health ABC Study

1190   Brief Report.  A Randomized Trial of Two Forms of Therapeutic Activity to Improve Walking: Effect on the Energy Cost of Walking
Jessie M. VanSwearingen, Subashan Perera, Jennifer S. Brach, Rakie Cham, Caterina Rosano, and Stephanie A. Studenski

1199   Letter to the Editor
Authors' Response to Letter to the Editor. Fall-Related Hip Fractures
Paul Stolee, Jeff Poss, Richard J. Cook, Kerry Byrne, and John P. Hirdes
Journal of Gerontology: BIOLOGICAL SCIENCES

The Journals of Gerontology, Series A: Biological Sciences publishes articles on the biological aspects of aging in areas such as biochemistry, biodemography, cellular and molecular biology, comparative and evolutionary biology, endocrinology, exercise science, genetics, immunology, morphology, neuroscience, nutrition, pathology, pharmacology, physiology, vertebrate and invertebrate genetics and biological underpinnings of late life diseases.

INSTRUCTIONS TO AUTHORS: Refer to the Instructions to Authors page online: http://www.oxfordjournals.org/our_journals/gerona/for_authors/general.html.
The Journals of Gerontology, Series A: Medical Sciences publishes articles representing the full range of medical sciences pertaining to aging. Appropriate areas include, but are not limited to, basic medical sciences, clinical epidemiology, clinical research, and health services research from professions such as medicine, dentistry, allied health sciences, and nursing.
